

Rumour Republic: Did Jay Z Really Pay For Dinner With Beyonce's Credit Card?

This must be highest level of rumour mongering I must say and since the iRelate blog is centred at bringing you raw gist and whatever is buzzing including gossip, we just had to report for duty... lolzzz.

Rapper Jay Z has provided rumor mongers with more evidence that he is a kept man who burned through his millions and is now broke and wholly dependent on his wife financially.

Read the excerpt from NY Post's Page Six below:

While Jay Z and Beyoncé have been checking out the Miami club scene recently, they've also been spending plenty of family time together.

The pair brought baby Blue Ivy to brunch on New Year's Day at Soho Beach House and also were spotted dining at MC Kitchen the next day.

They also shared a romantic dinner for two at Zuma and at Casa Tua, where they sang karaoke for gobsmacked guests. Our spy reports that Jay Z then paid with - Beyoncé's credit card.

Remember kids, outside appearances can be deceiving.
